

Congress of the United States
Washington, DC 20515

October 13, 2015

The Honorable Ash Carter
Secretary of Defense
1000 Defense Pentagon
Washington, DC 20301-1000

Dear Secretary Carter,

We are writing to express our support for the Advanced Functional Fabrics of America (AFFOA) proposal to the Department of Defense (DOD), FOA-W15QKN-15-R-0074, regarding a Manufacturing Innovation Institute (MII) in the field of Revolutionary Fibers and Textiles.

To date, the AFFOA team spans 28 states and includes 40 industry partners. AFFOA will enable rapid prototyping of a spectrum of products from fabric-based wearable devices to portable shelters incorporating previously unimaginable protective and energy-harvesting capabilities.

The proposed institute is a public-private partnership that will revitalize the fiber and textile industry. Our states are home to both manufacturing enterprises throughout the revolutionary fiber and textile supply chain and some of the best STEM education and workforce training programs in the country.

AFFOA will be managed by the Massachusetts Manufacturing Technology & Innovation Corporation (M2TIC) with headquarters in the Cambridge, MA technology district and an innovation and training center in central Massachusetts. State and local governments and partner companies will contribute over \$200 million as cost share to AFFOA over its first five years. Together, our states offer AFFOA and the Department of Defense unparalleled resources for the establishment and operation of the newest component of the National Network for Manufacturing Innovation.

Thank you for your consideration.

Sincerely,

Joseph P. Kennedy, III
Member of Congress
