Washington, D.C. 20510

The Honorable Chris Murphy
Chairman
Homeland Security
Washington, D.C. 20510

The Honorable Katie Britt
Ranking Member
Homeland Security
Washington, D.C. 20510

Dear Chair Murray, Vice Chair Collins, Chair Murphy and Ranking Member Britt:

I certify that neither I nor my immediate family has a pecuniary interest in any of the congressionally directed spending items that I have requested in the Fiscal Year 2024 Homeland Security appropriations bill, consistent with the requirements of paragraph 9 of Rule XLIV of the Standing Rules of the Senate.

Sincerely,

Edward J. Markey

**Markey, Edward(D-MA) Homeland Security
Congressionally Directed Spending Requests**

| Recipient Name | Project Purpose | Project Location | Amount Requested (\$000) |
|----------------------------------|--|-------------------------|---------------------------------|
| City of Boston | This proposed project would result in completed designs for climate resilience and park improvements located at a critical maritime transportation hub. These resilience improvements would protect against a key flood entry point into Downtown Boston. | Boston MA | \$2,000 |
| City of Brockton | The Emergency Operations Center project will create a new state-of-the-art facility to assist the City of Brockton with local disaster response. The project will allow Brockton to monitor critical infrastructure during emergency or disaster events. | Brockton MA | \$2,500 |
| Cambridge Community Center, Inc. | "The City of Cambridge has been working with the Cambridge Community Center (CCC), a non-profit organization founded in 1929 to serve the Coast neighborhood, to develop a Resilience Hub to provide CCC with a clean, resilient energy system. | Cambridge MA | \$1,000 |
| Chelmsford Water District | Replacement of two 66 inch diameter reinforced concrete culverts. | Chelmsford MA | \$1,700 |
| City of Chelsea | The City of Chelsea, North Suffolk Office of Resilience and Sustainability (a regional partnership between Revere, Chelsea, and Winthrop), GreenRoots, and the Mystic River Watershed Association are overseeing a comprehensive resilience program along Chelsea Creek. | Chelsea MA | \$1,000 |
| Town of Clinton | The Downtown Clinton Stormwater Project will mitigate hazards associated with the Counterpane Brook drainage system. Repeated failure of this system in recent years has affected vital economic activity, essential community services, transportation, and private property. | Clinton MA | \$9,689 |
| City of Melrose | We are looking for funding to manage significant flooding in the EJ neighborhoods that run from Melrose into Malden. This location is Melrose's #1 concern for flooding during high intensity storms, however flooding occurs even during 1-yr storms. | Melrose MA | \$1,000 |
| New Bedford Port Authority | This proposal is for a new Diesel Electric Hybrid Harbor Safety Police Vessel for the Port of New Bedford, which will perform the primary function of port safety and security in the nation's most valuable commercial fishing port and the first port supporting large-scale offshore commercial wind. | New Bedford MA | \$1,700 |
